Digital accounting & data driven commercial advice

Digital accounting and finance for business owners looking to work smarter and faster, make more informed decisions and improve the bottom line.

Our tailored accounting packages have been designed to help businesses manage their accounts, stay in control of finances and confidently plan ahead.

Martin Aitken & Co's qualified team of accountants, tax and business advisers will get you set up on the digital, trained and equipped with the know-how quickly, so you can get on with the running and growing of your business.

The simpler way to record, account, comply and plan, for a fixed monthly fee.

Tailor your package

Have you ever wondered what separates a highly productive and profitable business from the pack? A good, well-informed and connected FD. Our VFD service provides you with a senior finance professional who can provide the accounting and tax support and strategic advice your business needs without the need to employ a full-time FD.

Customise your digital accounting package by choosing from our range of VFD (Virtual Finance Director) add-on services. You can add or remove VFD services from your accounting package as and when you need them.

We also recommend a range of apps that will help to make running the business day-to-day easier. From managing expenses and creating customer marketing campaigns to forecasting cash flow and managing workflows. The apps integrate seamlessly with our digital packages.
